LAFCO No. 4-R-22 | Annexation No. 30 to Nipomo CSD (Dana Reserve)

Subject:	Dana Reserve Annexation
Message:	I am very disappointed by LAFCO's decision to allow the annexation of the Dana Reserve into NCSD. The Board showed its bias in making this decision. It clearly ignored the wishes of the Nipomo residents. The water being "given" to Dana Reserve was originally designated to existing customers of NCSD (not future developments outside NCSD) and was meant to recharge our ground water. In addition, the Board ignored the many unresolved mitigations in the final EIR and the newly discovered manzanita that is unique to Nipomo. I would have expected better of the Board.
